

C6 LED Street light

Product Description

C6 LED Street light is a popular product in LED street lighting. Honeycomb type heat dissipation and full structure heat dissipation technology makes it high performance in heat dissipation. And the longitudinal uniformity of C6 LED Street lights up to 0.95, which contributes to the more comfortable sense and safety for driver, and reduce the incidence of traffic accidents effectively. What's more, C6 LED Street light is competitive for its outstanding working ability against harsh environments such as strong wind, low temperature, and so on.
