## ST64 High power LED Fireworks Bulb

### Product Description

ST64 High power LED Fireworks Bulb is of unique design, it is the best choice for you who want to decorate your house as a warm, bright home. The warm yellow light it emitted can be as bright as 10-30 watts of conventional lights, while saving about 80% energy compared with the incandescent bulb of the same illuminating effect. Also, ST64 High power LED Fireworks Bulbs are much more environment friendly than conventional or halogen light in generating heat and service life.

### Benefits of LED Fireworks bulb:

1. It is designed to last 20,000 hours—17 times longer than incandescent bulbs.
2. Use 80% less power than conventional or halogen light and 50% less than compact fluorescents.
3. The power saving from an Led light will usually pay for itself in less than 2 years.
4. It is fit for building the atmosphere of somewhere just as bar, bistro, and so on.
5. Less heat produce, it is safer to operate.
6. Environment-friendly, no mercury and harmful metal.
