

## 3W Tubular Vintage LED Filament Bulb

### Product Description

3W Tubular Vintage LED Filament Bulb has been designed to imitate the vintage style incandescent filaments. It offers aesthetics that will update your existing bulbs while maintaining a classic feel. 3W Tubular Vintage LED Filament Bulb also generate a powerful light as much light as a standard 40w incandescent bulb, yet have very low energy consumption and an extremely long lifespan, making them environmental more friendly. They give instant 100% light, no warm-up time and uses 80% less power than conventional Incandescent bulbs. Each 3W Tubular Vintage LED Filament Bulb has a 360° beam spread, ideal for a wide variety of decors; from home lighting, cafe lighting and restaurant lighting, shop fronts and office fit outs... anywhere a statement and a light source is required.

### Benefits of LED filament bulb:

1. Energy-saving, low heat, low power consumption, stable performance.
2. Long life span, it can last 25000 hours.
3. LED filament lamps offer aesthetically appealing designs combined with quality and energy efficiency
4. Perfect blend of traditional and cutting-edge technology.
5. Great reducing carbon emission, environmentally friendly.
6. With traditional incandescent lamp design, it can be easily accepted by common people.
7. With 360° beam angle, the filament bulb can give out light omnidirectional.

# Zhejiang Seming Electronic Co., Ltd

- 8. No radiation, no mercury, instant start, no flicker, no harm to human eyes.
- 9. Does not contain lead, mercury and other pollution elements.

## Detailed Parameters:

Bulb Type	Tubular Incandescent Clear Glass
Condition	Brand new light bulb and packed with factory box
Dimmable	No
Size	Diameter30mm x height 185mm
Watts	3W
Voltage	220V/110V
Life Hours	20000 average hours
Base Type	Standard E27 Medium Screw Base
Lumens (Initial)	300 lm
Color Temperature	2200K warm color

## More Details:

E27 screw base is interchangeable with E26 lamp holder.

All of our light bulbs are CE approved and will work anywhere in the world. And OEM, Custom made both are OK.
